Most banks offer the same services. But not many are like The Chartered. For when you bank with The Chartered you are confident in the knowledge you are dealing with a bank that has branches and correspondents world-wide. And that's a good feeling.

Miss Butler as a Peace Corps volunteer spent her time collecting and studying the traditional embroidery patterns of the Yao tribeswomen. She has written the only authoritative text on the subject.

The volume has 16 pages of line colour of the actual designs and 14 full colour photographic illustrations. The cover is clothbound with a Yao design picked out on the front. There are 14 pages of text. The volume is rather larger than most Siam Society publications in size, being 8" × 10½".

Thai International now flies to far more countries in the Orient than any other airline.

Suddenly we fly to far more countries in the Orient than any other airline. We can take you as far north as Japan, as far south as Bali, as far east as the Philippines, as far west as India, and as far out as Nepal. In all, we can now take you to any of 15 countries throughout the Orient.

And we'll take you there with all the extravagant extras that have helped get us where we are today: food that keeps on coming and coming; drinks that no one asks you to pay for; and hostesses who are just as efficient as they are charming. Next time you fly, take Thai International. It's the airline the Orient knows best.

The Banker's Bank.

In pursuing our objectives of promoting capital investment and providing medium term loans to productive industries, we at FNCDF are often pleased to be able to work with and through our Thai banking friends. Our parent, First National City Bank, similarly provides off-shore finance for and with Thailand's vigorous banking system. The First National City group is therefore pleased to serve Thailand as a "bankers' bank."

TWA presents
the 747 flightseeing tour to New York.

Any airline that can afford the 747 has one.

But what makes TWA's 747 so different from the others, is her interior. That's because we asked thousands of our passengers what they wanted in a plane before we spent 25 million dollars building one.

And what you wanted was comfort. So we put fewer seats in our 747 than any other major airline. Which means more headroom, more legroom, wider aisles than ever before.

We put in seven kitchens so you can eat when you want to.
We added more hostesses too. To look after you and for you to look at.
And if that isn't enough, we offer you a choice of two different movies to watch.
And we put in a computerized navigational system similar to the one that guided the Apollo spacecraft to the moon. But not because we were asked to.
Then we built Flight Wing One at Kennedy Airport. It's the only terminal in the world specially designed to handle the 747's. We even have our own private facilities to speed you through Customs and Immigration.

So the next time you fly to New York, fly TWA's 747. There's so much more to see and do, that once you leave your seat, you may even end up walking to New York.

For supreme occasions
The Regent Room

Travertine marble floors, Louis Quince chairs. Exquisitely elegant chandeliers. Breathtaking mirrors. Noble crystal. Take all of these and the design flair of Baron Francois Duhau de Bereny combine them after the grand manner of the Palace Versailles and the Court of St. James, add the gastronomic virtuosity of Gerard Musset, and place them overlooking a torchlit courtyard terrace beside the River of Kings.

The result is The Oriental's sumptuous new locale for select banquets and intimate receptions. For those most important occasions when only superlative standards of luxurious perfection in surroundings and service can possibly be good enough.

We bring you with pride, The Regent Room.

A WAY OF LIFE IS CHANGING..... For the better. In Thailand, as new roads augment the traditional waterway system, the face of the country is changing. New factories, new schools, new farms, new hospitals are appearing in the wake of the bulldozer. Progress and prosperity is the reward for Thailand as new areas develop, new industries are formed and new highways take shape. Shell is happy to have a hand in this changing scene. Shell fuels and lubricants are on the job throughout Thailand, moving the machines that pave the way to new prosperity.

**Buddhism Explained** by Bhikkhu Khantipalo (xvi + 200 pages + 24 illustrations) Baht 120.00

"The book should make a powerful appeal to two kinds of persons. First, those largely ignorant about Buddhism and who are sincerely eager to repair their ignorance, will find in it exactly what they need ... Second, a good many people with a fairly intensive knowledge of Buddhism would be happy to have such a work on their bookshelves because it provides a complete summary of all the essentials of Buddhist teaching and practice, and can be used as a handy reference book for materials that usually have to be hunted out from more than one source ... Thai students going abroad are among those to whom the book is most warmly recommended."
